

EVERYONE CAN CODE WORKSHOP

APPS & IBOOKS PREREQUISITES

To ensure a smooth user experience and minimal downtime, it would be really helpful if you could read the following information and download the requested apps and resources, PRIOR TO ATTENDING.

Please bring your own iPad to the session, however **this workshop requires the latest Apple iOS10**. If you do not have access to an iPad with iOS10, we will have small number of loan iPads available. It would be helpful for you to alert us prior to the event if you will be needing a loan iPad, but not absolutely necessary. To check which iOS you are running, go to Settings > General > About and look at which version is listed.

iPad Prerequisites

1. Ensure that you have details regarding your **Apple ID** and if possible, **please enrol in Apple Teacher** prior to attending the event: <https://appleteacher.apple.com>
2. If you DO NOT have an Apple ID, **please create one**: <https://appleid.apple.com/account#!&page=create>
3. **Update your iPad with latest iOS**
4. Ensure that all of these **FREE apps** are installed on your iPad with the latest version:

Once Swift Playgrounds is downloaded, please open the app and download the **Learn to Code 1** Playground.

iBooks Prerequisites

If possible, please download these **Teacher Guide iBooks** prior to attending event, as well as the **Swift Playgrounds iTunesU course**.

Thank you and we are looking forward to seeing you at the workshop.

If you have any questions regarding the event, please contact our workshop facilitator directly:
