

REDUCE THE SPREAD OF INFECTION WITH PC LOCS UVONE – \$3,999^{ex gst}

Consider the last time you properly sanitised your device.

UVone helps mitigate the spread of bacteria anywhere devices are being used or shared.

UVone touchless operation disinfects mobile devices to a 6-log kill in just 30 seconds, providing assurance that your device is 99.9999% bacteria free.

With touchless sensors, users never physically touch the station, reducing cross contamination. UVone is specifically designed for quickness and ease of use, encouraging busy professionals to change their daily behaviour, thus increasing hygiene compliance long term. It seamlessly integrates into any environment or workflow, in locations that are most convenient and visible for compliance.

Compatible with Almost Any Mobile Device.

UVone can accommodate any device, including tablets or phones with or without a case, that is no larger than 266.7mm x 38.1mm x 184.15mm. It can disinfect up to three smaller devices at one time or even items like keys & badges.

Form Meets Function.

The sleek, compact design of UVone seamlessly integrates into any environment. Mount the station directly outside of any area most convenient for use.

Countdown Timer.

Users are able to see how much time remains until the contents are completely disinfected.

Ready at All Times.

The UVone station is easy to use. No need to turn off your device before use.

Six Times Quicker Than Traditional Wipes.

Traditional wipes can take upwards of three minutes to disinfect, while UVone disinfects in just 30 seconds. UV-C disinfection is more reliable & efficient than wipes, plus it doesn't degrade the integrity of devices over time.

Easy-to-Use App.

In the event a bulb does burn out, the UVone app provides the ability to see which bulb needs to be changed. It also allows easy firmware updates.

Up to 10,000 Hours of Bulb Life.

16 long-lasting UV-C bulbs are enclosed behind glass, giving users up to 1.2 million uses over its lifetime.

1-Year Warranty.

UVone is backed by a 1-year warranty, protecting you against product defects.

PC Locs offers a complete suite of solutions for mobile device charging, storage and security. Easily pair UVone with a PC Locs charging station that works best for you to ensure devices are reliably sanitised, charged and ready for use at all times.

Contact CompNow to preorder a UVone today and receive 10% discount*.
