

# Deliver more for less

With CompNow's smart, flexible and expert modern workplace packages for local government.

## How to get from here:

Inefficient, legacy systems that frustrate citizens and cost councils time and money

The majority of local governments in Australia are being held back by out-dated technology that fails to deliver on the expectations of digital citizens. These local governments risk becoming irrelevant in the eyes of their constituency.

Only **20%** think their own council is doing enough to transition to a digital environment.\*

**90%** think digital is the way of the future

### Local governments now

Out-dated Systems

Complex Infrastructure

Frustrated Residents

Business Silos

## Impediments to change

**22%** Cost of resourcing

**19%** Resistance to change

**17%** Limited technical capability and infrastructure

**14%** Lack of leadership or strategy

## To here:

## Benefits

### Budget with predictability

Reap the benefits of a connected, always-on workplace – with one monthly payment for more predictability around cost.

### Boost productivity

With more mobility, employees can work from anywhere, anytime. A modern workplace helps them be their best.

### Attract the best talent

Enhance the reputation of your council as a great place to work, making it easier to attract top talent, retain staff and boost job satisfaction.

### Satisfy constituents

Make public services more efficient and convenient, by offering digital services that remove the friction.

### Data security

A cloud-based model delivers enhanced security, helping to meet rigorous government regulations around data security and freedom of information.

### Deliver more for less

With CompNow's modern workplace package, you gain access to more of the best tech resources and support for less money.

## About CompNow

CompNow is a 100% Australian innovative tech company founded in 1990, specialising in supply, services and support within the business, government and education sectors.

CompNow is represented on many state and national procurement panels around Australia, and currently works with dozens of local government clients. CompNow is well versed in the challenges and opportunities faced by this sector.
